

CAREER OBJECTIVE

Aspiring Software Engineer with a strong foundation in Java, Data Structures and Algorithms, and web development. Passionate about building efficient, scalable, and user-friendly applications while continuously learning new technologies. Seeking an opportunity to apply my technical skills, problem-solving abilities, and enthusiasm for software development to contribute to innovative projects and grow as a professional developer.

EDUCATION

Diploma in Computer Engineering , R.K. University	2021–2024
Relevant Coursework: Data Structures, DBMS, Operating Systems	CGPA: 8.49/10
B.Tech in Computer Science Engineering , Parul University	Expected 2027
Relevant Coursework: DSA, Machine Learning, Artificial Intelligence	CGPA: 8.21/10

SKILLS

Languages	Java(J2EE), SQL, JavaScript
Java Technologies	Stream API, JDBC, Servlets, JSP, Spring Boot
Frontend	HTML, CSS, JavaScript, React.js
Databases	MySQL, MongoDB
Tools	Git, GitHub, IntelliJ IDEA, Eclipse

PROJECTS

Android Booking Application	Java, Android Studio, SQLite/Firebase
- Developed an Android-based booking application using Java with XML-based responsive UI. - Integrated SQLite/Firebase to manage 200+ user and booking records efficiently. - Implemented features across 5+ screens including login, booking, and profile modules. - Optimized UI components, improving overall app performance by 20	
Smart AI Assistant	Python, NLP, Machine Learning, SQL
- Developed an AI-powered assistant using Natural Language Processing (NLP) to effectively understand and respond to user queries. - Preprocessed and analyzed textual data using Python libraries such as NLTK and spaCy to significantly improve overall model performance. - Enhanced user interaction by automating 5+ tasks and reducing response time by 30%. - Trained and evaluated machine learning models to improve prediction accuracy and performance.	
TaskFlow Web Application (MERN Stack)	React.js, Node.js, Express.js, MongoDB
- Developed a full-stack task management web application using MERN stack. - Implemented CRUD operations (Add, Read, Update, Delete) for task management. - Built RESTful APIs and integrated them with React frontend. - Tested APIs using Postman to ensure proper request and response handling.	

EXPERIENCE

Android Development Intern — Kotlinz Infotech	Aug 2023 – Feb 2024
- Implemented RecyclerView, Fragments, and Material UI components across 5+ screens. - Conducted debugging and testing on 10+ app builds using Logcat and Android Emulator. - Improved application stability by identifying and fixing bugs during testing and debugging phases.	
AI Intern — Unnati Industrial Training	Feb 2025 – Apr 2025
- Analyzed customer datasets with 1,000+ records to generate AI-driven insights. - Applied AI techniques to derive actionable insights for business decision-making. - Preprocessed and cleaned large datasets to improve data quality and model performance.	

CERTIFICATIONS

- NPTEL Certification in Computer Networks (OSI, TCP/IP, Routing).
- IBM Certification in AI Fundamentals.
- AWS Academy Cloud Foundations Certification.
